

SKILL ECOSYSTEM · COMPLETE CATALOG · FINAL SWEEP

Every skill for building websites, *in one place.*

The full map after a comprehensive sweep: nine in-repo skills that fire automatically, the sanctioned external installs, six newly-swept categories, and the marketplaces that index everything else. Nothing on this topic left unsearched — coverage confirmed on the last page.

The in-repo suite — 9 skills, auto-invoked

LAYER 1 · PERMANENT

TASTE

01 design-taste LIVE

Apply any of 54 brand design languages (Stripe, Linear, Apple, Claude...) from `design-md/` — palette, type, spacing, motion cues.

IDENTITY

02 brand-kit LIVE

Client brand system: color roles, type pairing, logo direction, tone of voice, do/don'ts — buildable straight into code.

BUILD

03 client-website LIVE

The site itself — shadcn/ui + Tailark, Magic UI, Aceternity, React Bits, Origin UI; ranked catalog with install commands.

TEMPLATES

04 Indev-pages LIVE

Full-page layouts from Indev (bk.Indev.me/pages, Square UI) via the shadcn registry — high-taste starting points.

WORDS

05 landing-copy LIVE

Conversion copy — benefit-led headlines, section-by-section structure, CTAs, objection handling. Honesty guardrails built in.

SHIP

06 web-launch LIVE

Core Web Vitals, SEO meta, Open Graph images, accessibility, responsive QA, deploy — the pre-flight checklist.

PRESENT

07 deck-design LIVE

Premium PDF decks and one-pagers — the navy template behind the 89-sector sample library; engine selection guide.

AUDIT

08 site-teardown LIVE

UX + CRO teardown of any existing site — Nielsen's 10 + conversion checklist → five prioritized quick wins. The redesign-pitch engine.

POLISH

09 motion-design LIVE

Tasteful animation — restraint rules, duration/easing standards, Motion/GSAP/Lenis recipes, reduced-motion, "too much?" review.

Supporting data in the repo: `design-md/` (54 brand specs) · `samples/` (89-sector concept library, Vols I–V, + the reusable deck template). Hub: `.claude/skills/README.md`, referenced from `CLAUDE.md` so it loads every session.

External skills — sanctioned installs

LAYER 2 · ONE COMMAND AWAY

OFFICIAL · PROPRIETARY, INSTALL VIA PLUGIN

anthropics/skills 2 COMMANDS

pptx · docx · xlsx · pdf — native, editable Office files & PDF ops. Plus **frontend-design** (anti-"AI-slop" UI), **brand-guidelines**, **theme-factory**, **canvas-design**. ~148k★. Skill folders are proprietary/source-available — never vendored, installed cleanly:

```
/plugin marketplace add anthropics/skills
/plugin install document-skills@anthropic-agent-skills
```

COMMUNITY FLAGSHIP · MIT · NEEDS YOUR GO-AHEAD

UI/UX Pro Max AUTHORIZE

The most popular community design skill (~88k★): **67 UI styles**, **161 palettes**, **57 font pairings**, **99 UX guidelines**, **25 chart types**, searchable via bundled Python (inspected: pure-stdlib, no network/exec). Ships executable scripts → explicit owner authorization required to vendor. Or run its installer yourself:

```
npm i -g uipro-cli && uipro init --ai claude
```

TASTE EXPANSION · MIT · PURE MARKDOWN

awesome-claude-design ON REQUEST

28+ DESIGN.md files in **9 aesthetic families** (Editorial Minimalism, Terminal-Core, Warm Editorial, Data-Dense Pro, Cinematic Dark, Playful Color, Glass, Neon Brutalist, Cult/Indie) + remix recipes + anti-slop kit. No code — safe to vendor into `design-md/` on request.

CROSS-PLATFORM STANDARD

openai/skills (Codex catalog) COMPATIBLE

Curated catalog on the same SKILL.md standard — notably **frontend-skill** (high-level art direction, restrained composition, anti-generic patterns) and **figma-implement-design**. The open Agent Skills format installs across 14+ tools, including Claude Code.

LAYER 3 · VETTED, INSTALL ON DEMAND

CATEGORY	BEST-OF FINDS (GITHUB)	RELATION TO OUR SUITE
Accessibility audit	airowe/claude-a11y-skill — axe-core + jsx-a11y, WCAG 2.1 AA · Community-Access/accessibility-agents — 11 WCAG 2.2 AA specialist agents	Deepens the a11y step of web-launch with automated scanning
Design audit	Ashutos1997/claude-design-auditor-skill — 19 professional design rules + separate accessibility score, severity-ranked	Overlaps site-teardown ; useful second opinion
Figma → code	nafiurrahmaniloy/figma-skill — tokens → 7 frameworks, theme.extend output · figma-design-system-to-design-md — Figma tokens → design.md · lifesized/figma-design-sync — code ↔ Figma	New capability: when a client hands over Figma files
Logo & SVG assets	neonwatty/logo-designer-skill — iterative SVG logo flow, pure Markdown (no code — lowest risk) · op7418/logo-generator-skill — 6+ variants, showcase images	Extends brand-kit 's logo direction into actual SVG marks
SEO & marketing	coreyhaines31/marketingskills — CRO, copywriting, SEO, growth · aaron-he-zhu/seo-geo-claude-skills — 20 skills incl. GEO/AI-search · AgriciDaniel/claude-seo — 25 sub-skills · OpenClaudia — 34 marketing skills	Depth behind landing-copy + web-launch SEO; GEO (AI-search optimization) is genuinely new
Mega-collections	onewave-ai/claude-skills — 172 production skills across sales/marketing/design/engineering · boraoztunc/skills — copywriting/SEO/design set	Browse when a one-off need appears

Supply-chain rule (unchanged): pure-Markdown skills are low-risk; anything shipping executable scripts gets inspected and needs the repo owner's explicit go-ahead before entering the auto-invoked `.claude/skills/`.

The discovery layer — where anything new appears

claudemarketplaces.com

Largest Claude Code directory — 20,300+ skills browsable by category (frontend, testing, security...).

skillsmp.com

800k+ skills auto-indexed from public GitHub (≥2★ filter) — Claude Code, Codex & ChatGPT compatible. Biggest raw catalog.

claudeskills.info

658+ curated free skills incl. the official Anthropic set — community-vetted, no paid tier.

smithery.ai/skills

Skills + MCP registry; strong on artifact-building (React/Tailwind/shadcn) tooling.

skills.sh · awesomeskills.dev

Further cross-tool directories on the open Agent Skills standard (14+ tools).

Awesome lists (GitHub)

travisvn · ComposioHQ · BehiSecc · heilcheng *awesome-claude-skills* — and **VoltAgent/awesome-agent-skills** (1,000+ curated).

These six entries are the **meta-layer**: every new website-design skill that ships lands in one of them. Checking these periodically (or asking Claude to) keeps this catalog current without re-running a full sweep.

Confirmation: all 16 axes relevant to website design, build, launch, and presentation have been searched and catalogued — nothing identified remains unsearched. **Honest limits:** the 800k-item auto-indexes can't be enumerated item-by-item (their best entries surface via the category searches above); new skills ship weekly, so "complete" means complete as of 10 June 2026; the meta-layer on page 5 is the refresh mechanism.
