

THE DESIGN RANGE · DELIVERABLES × AESTHETICS

Everything we can put *in front of you.*

Part one: eight kinds of deliverable — websites, dashboards, apps, brand kits, decks, social kits, posters, email. Part two: eight aesthetic languages we design them in. Every page rendered, not described.

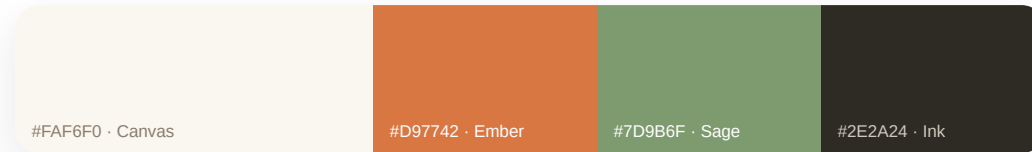

Solstice.

Wellness retreats · warm, grounded, quietly premium

HEADLINES

Georgia Serif

Display · 1.1 line-height · -1% tracking

BODY & UI

System Sans

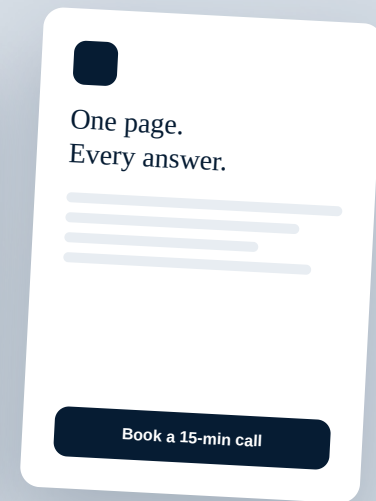

400/600 · 1.55 line-height

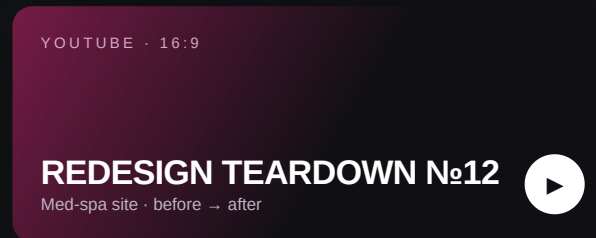

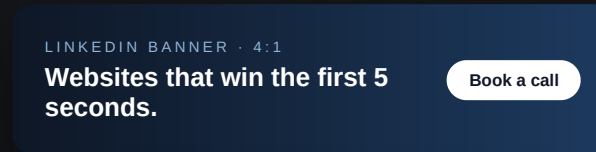

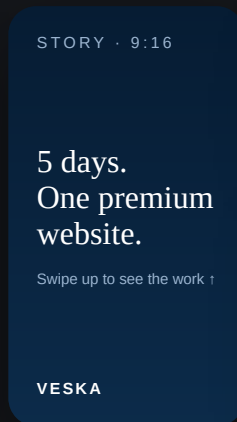

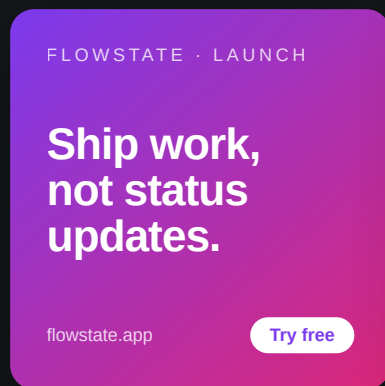

VOICE

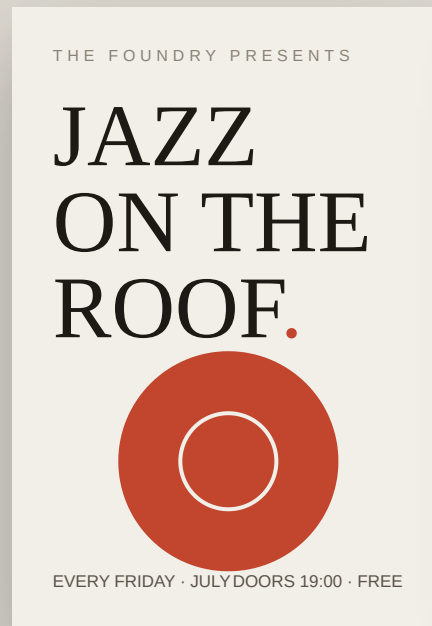

Warm · unhurried · specific. We sound like a wise friend, never like a brochure. *"Come as you are. Leave lighter."*

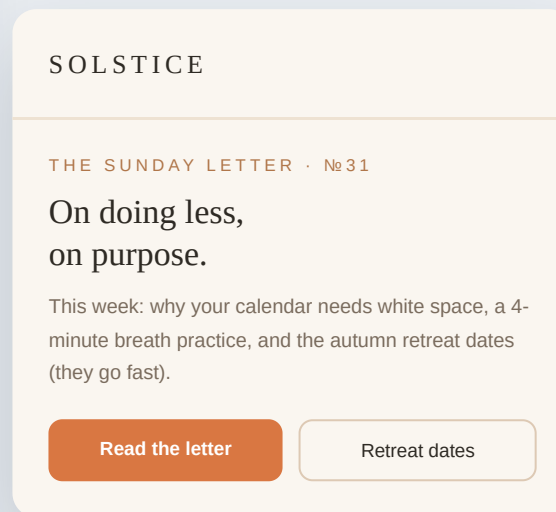

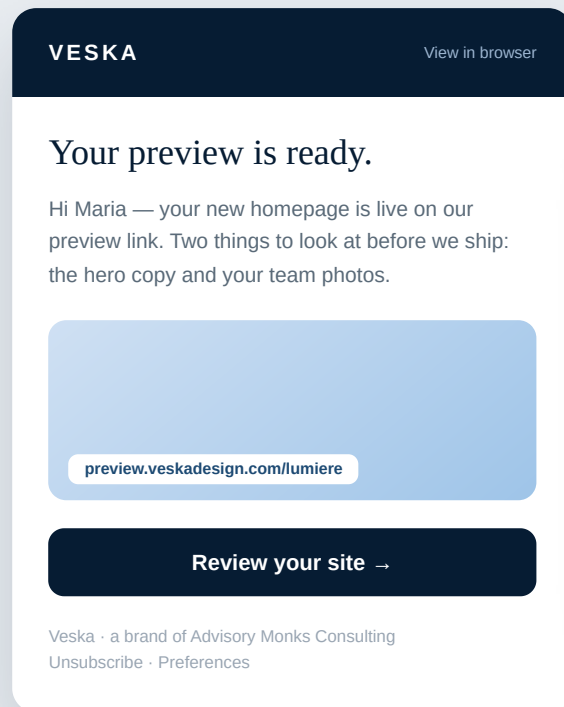

Logo suite · primary, reversed, mark-only · clear-space = 1× mark height

B1 · EDITORIAL MINIMALISM

Whitespace is a design decision.

One serif, one accent, and the discipline to leave the rest out. For brands whose confidence doesn't need decoration — galleries, studios, publications, considered products.

STRIPE · LINEAR · APPLE LINEAGE

B2 · WARM EDITORIAL

Paper-warm, human-first.

Parchment canvas, terracotta accent, neutrals with a yellow-brown undertone — nothing cold anywhere. The language of thoughtful companions: wellness, education, books, AI with manners.

Primary action

Secondary

"It reads like an essay, not a pitch."

Warm neutrals · ring shadows · serif cadence

B3 · LUXURY NOIR

Scarcity, set in *champagne gold.*

Near-black, gold leaf, centred serif reverence. The grammar of jewellery houses, private clubs, tasting menus and anything by-appointment-only.

RESERVE

DISCOVER

B4 · GLASSMORPHISM

Layers of light, floating UI.

Frosted panels over saturated gradients. Depth without shadows-on-grey. The look of consumer apps, fintech cards and anything that wants to feel like the future's lock screen.

B5 · DARK CINEMATIC

Glow where it matters.

Near-black canvas, one luminous accent, gradient type. The default language of serious software — dev tools, security, AI platforms — because focus reads as power.

B7 · NEO-BRUTALISM

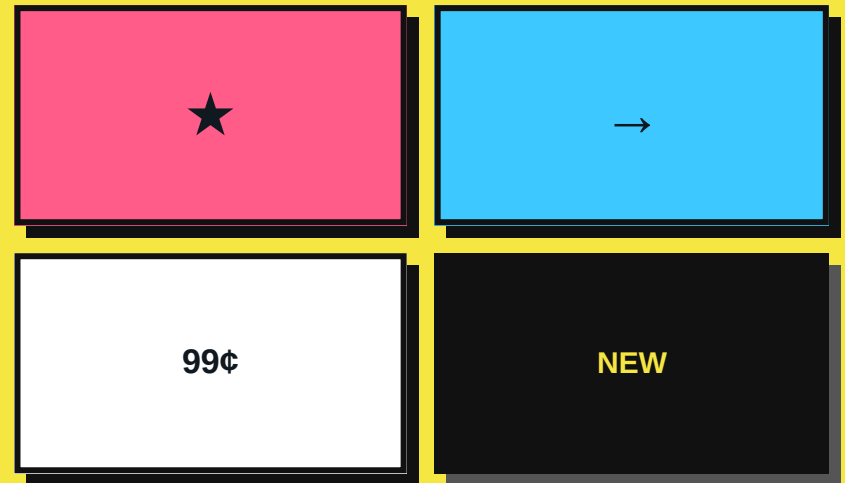

LOUD. HONEST. UNPOLISHED*

Hard borders, raw shadows, system colors at full volume. Zero gradients, zero apology. For brands that win by refusing to blend in.

*polished where it counts: the checkout.

B8 · PLAYFUL COLOR

Serious product. Friendly face.

Rounded everything, candy accents, generous bounce. Warmth that lowers the barrier — for education, kids, community products and brands that lead with delight.
